

Competitive Local Exchange Carriers (CLECs)

Residential Prepaid Service

Prepaid service is primarily targeted to customers who have had their phone service suspended for nonpayment. Such customers often continue to have an unpaid balance with a local phone company and they may have difficulty obtaining traditional local phone service. Prepaid service is structured so that the customer is unable to place toll calls or bill any additional charges to the customer's account. Prepaid service rates are usually significantly higher than traditional local phone service.
